JMEV EV2

CONVENIENT

Beyond the imagination of the big players,
to create unlimited possibilities with sophisticated design,
producing the most trendy fashion item on the street.

Comfortable Space

With a 2340mm extra-long wheelbase, 5 doors and 4 seats, the EV2 enables a comfortable driving experience in the wide body, while ensuring JMEV·EV2 itself is sensitive to extraordinary space in its class.

14 Storage Spaces

In addition to the wide-body trunk, there are 14 class--leading storage spaces inside the car, which are reasonably distributed in the front, middle and rear of the car. Items are organized and put away in order.

Innovative Rear Stereo Carries

The largest trunk lid opening with a full glass tailgate in its class with an optical lens glass panel makes it easy to put and take items while maintaining a clear view.

Crescent Curve Roof

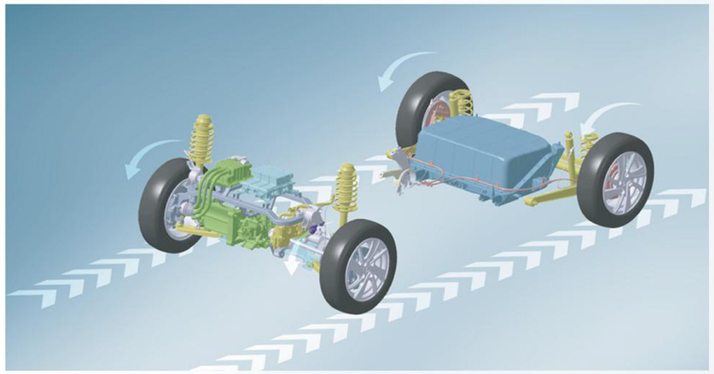
The innovative double-arch shape inspired by the crescent moon of the roof is different from the impression of angularity in its class, which can reduce the wind resistance coefficient.

One-piece Stamping Doors

The vehicle adopts one-piece stamping doors equipped with a collapsible energy-absorbing headliner and a collapsible energy-absorbing steering column that can absorb energy effectively.

Digital Instrument Panel Screen

The simple and beautiful digital instrument panel screen is compatible with intelligent technology and artistic sense of fun. It manipulates the future of technology world in a panel.



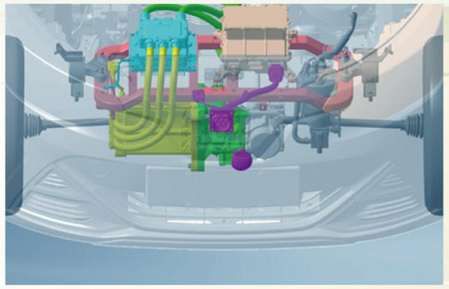
Better Performance in Cruising Range

Light interior

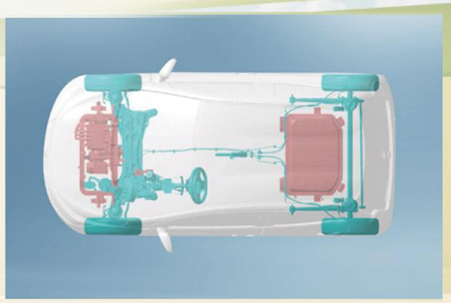
SMART

With all-dimensional robustness and balanced energy to surpass the class, JMEV·EV2 works hard to light up the cool life.

Sino-Euro Standards
57 years of car building history, to produce the unique joint-venture pure EV models at a level that can meet the Sino-Euro standards.

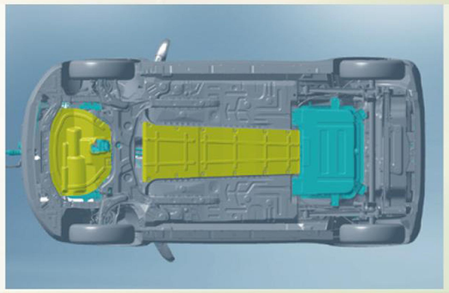


Master of Motor and Battery
A high-quality permanent magnet synchronous motor can achieve a maximum power of up to 30KW. Equipped with the SUNWODA lithium iron phosphatebattery, its energy density can reach 125wh/kg.



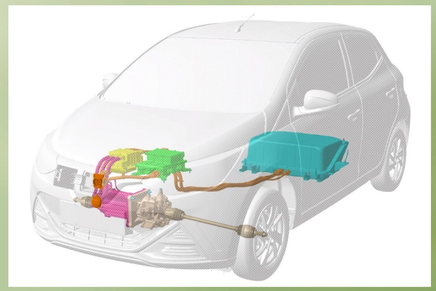
Showcase Strength from the Start
The maximum torque ofthe high-specification motor of JMEV.EV2 reaches 85N·m, which is more powerful than the torque of most 1.2L naturally aspirated fuel cars.

The Best Axle-load Ratio in Its Class
Based on the innovation of JMEV' s pure electric platform, the front-to-rear axle-load ratio of JMEV.EV2 under full load is49:51, achieving an excellent balance.



Exclusive Protection Armor of the EIC System
Self-developed EIC protection system creates an electric drive system with small size, light weight, and low energy consumption.

All-round Intelligent Master
Equipped with standard ABS+EBD, automatic locking system when speed exceeds 20km/h, hill assist system(HAS), reversing radar and reversing camera system,and tire pressure monitoring system (TPMS), etc.



30kW motor, 330V high voltage,
3.3kW AC charging & 12kW DC charging

Product Definition

Vehicle Modules	Configuration	Standard	Comfort
Basic Information			
	Dimension(mm)	3500×1646×1460	
	Wheel Base(mm)	2340	
	CLTC Autonomy Mileage (km)	⩾201	
	Seating Capacity	4	
Power			
	Motor Type	Permanent Magnet Synchronous Motor/Air Cooling	
	Power(nrp/peak)-kw	16/30	
	Shift Mode	Rotary Shifter	
	D/E model	●	
	Battery Capacity(kwh)	15.88	
	AC Charging Power（kW）	3.3	
	AC charge time (h	5~7	
	DC Charging Power（kW）	12	
	DC charge time (30-80% battery, min)	40	
	Specific Energy Density (wh/kg)	⩾125	
	Braking Energy Recovery	●	
	EPS	●	
	Steering Wheel Adjustment	Up and Down	
	Steel Wheel	●	—
	Aluminum Wheel	—	●
	Rear spoiler	●	
Appearance			
	Colour	Blue, Cyan, Green, White	
	Headlamp Height Adjustment	●	
	LED HMSL	●	
	Window Lifter(Front/Rear)	Electric/Electric	
Seats			
	Fabric	●	●

Vehicle Modules	Configuration	Standard	Comfort
Safety			
	Child Seat ISO FIX	●	
	Integrated sports seat	●	
	Anti-lock Braking System(ABS)	●	
	Electronic Brakeforce Distribution (EBD)	●	
	HHC	●	
	Airbag(Driver's Seat)	●	
	Airbag(Passenger's Seat)	●	
	APD(crash)	●
